

Tuna Cream Cheese Spread

1 – 6 oz. pkg. Cream cheese (I use the lower fat version.)
1 – 6 ½ oz. can or package tuna, drained
2 to 4 T. mayonnaise
½ to 1 T. lemon juice
¼ t. curry powder
2 green onions, including partial green stems, finely chopped

Soften cream cheese for 1 hour. Mash drained tuna with a fork. Using mixer on low speed, combine cream cheese, tuna and mayonnaise. Add lemon juice, curry and salt.

Mix well.

Add onions and stir by hand to blend. Chill for 1 hour or overnight for flavors to set.

I tend to use 2 rather than 4 T. mayonnaise.

We serve this with either water crackers, pretzel crisps, lightly salted matzos, and celery.
